## Online Sale Finalizes Saturday, October 1, 2022

**ANNOUNCEMENTS MADE ON SALE DAY TAKE PRECEDENCE OVER ALL PREVIOUSLY REPORTED INFORMATION**

### WELCOME

*A warm hello from the Spitzer families! As Seedstock Breeders, we take our job of providing real world genetics to our friends and customers very seriously. We want to continue to earn your trust and business by providing bulls that will increase your cow herd profitability. Thanks for taking time to study our catalog and please call with any questions.*

### SCHEDULE OF EVENTS

**NOW** - Ranch Visitors Welcome Any Time!

#### Wednesday, September 21, 2022

8 a.m. CDT Bidding Opens

#### Saturday October 1, 2022

8 a.m. CDT – Bulls on Display at ranch.

1 p.m. CDT – Bidding begins to close per **“Racehorse Style.”**

That is, bidding remains open on all bulls until there is a 5-minute lapse from last bid on any bull in the sale.

### OUR CUSTOMERS DECIDE THE SALE ORDER

Bulls are cataloged in order by tattoo number. We do not determine a sale order! You as customers do that by bidding on any bull at any time during the sale. Super advantage - If bidding on your first choice exceeds your limit, you can bid on any other bull in the sale until the auction closes.

### BIDDING PROCEEDURE

This is an online auction. Bidding will open on all bulls at 8 a.m. on Wednesday, September 21. Incremental bids of \$200 will be accepted on bulls. Bidding can be executed with [www.smartauctions.co](http://www.smartauctions.co) or by calling:

Garrett Thomas ..... **936/714-4591**

John Spitzer ..... **864/710-0257**

Problems: SmartAuctions Customer Service ..... **937/733-6000**

### HEALTH

Health Papers (CVI) will be provided at no charge to buyers allowing shipment to Anywhere, USA. We have a detailed, comprehensive herd health program (available on request). All bulls will sell tested free for PI-BVD, Johne’s Disease and Trichomoniasis.

### CLAIMS FOR ADJUSTMENTS

All claims for adjustment must be made in writing to seller within 6 (six) months of sale date. All settlements will be made with credit at a future sale and this will, in all cases, be deemed full satisfaction and settlement.

### IMPORTANT TELEPHONES

Brian Spitzer ..... 620/672-1890

John Spitzer ..... 864/710-0257

Garrett Thomas (SmartAuctions) ..... 936/714-4591

Chad Burton ..... 706/499-3282

Loretta Spitzer ..... 620/450-7495

Patricia Spitzer ..... 864/710-4475

### SOUTHEASTERN REPRESENTATIVE

**Chad Burton**, Burton Family Farms, Westminster, SC, is representing Spitzer Ranch, LLC and will be pleased to help you with any questions concerning our bulls or the sale. Chad will also coordinate shipping and deliveries to GA, NC and SC.

### LIABILITY

All persons visiting the ranch or attending this sale do so at their own risk. Neither Spitzer Ranch, LLC nor anyone connected with management assumes liability, legally or otherwise, for safety of buildings, premises, or animal behavior. Furthermore, each bull will be at the buyer’s risk as soon as sold. Bulls will be cared for by Spitzer Ranch for a reasonable amount of time, but they assume no liability for accidents or injury to bulls.

### TRUCKING

Trucking is typically the sole responsibility of buyer, and all bulls sell FOB the ranch in Preston, KS. We do provide FREE DELIVERY within 100 miles of Preston, KS and continue to offer FREE DELIVERY on bull purchases of \$20,000 (one bull or several) to anywhere in continental USA. Recognize that all deliveries will be at cost. Either we, or a trusted, reputable trucker will get your animals delivered to you, or sometimes a central location close to you, as economically as possible. In all cases we ask that you provide a facility where we may unload, sort, and reload to lessen stress on animals. **Please note that deliveries and any injury are at buyer’s risk. If you want insurance, please talk to your local agent.**

### DIRECTIONS TO THE RANCH

Please see [www.spitzerranchbrangus.com](http://www.spitzerranchbrangus.com) on the web for a map. The ranch is located at 60043 NE 50TH St., Preston, KS 67583. We are 8 miles N of Pratt, KS, or 4 miles S of Preston, KS on HWY 61; then turn S on 60th Avenue and go 1 mile S to Spitzer Ranch.

## 2022 Profit Maker Bull Sale – Profitable Genetics from Performance Cattlemen

### GENOMICALLY ENHANCED-EXPECTED PROGENY DIFFERENCES (GE-EPD)

Expected Progeny Differences (EPD) values are exactly what the term implies. If two bulls are used on a uniform group of cows, the progeny are **expected** to have **differences** in average performance relative to the EPD values for the two bulls for whatever trait of interest.

With the advent of DNA testing we now combine the traditional EPD with the genomic testing to generate **GE-EPD**. Genomic-Enhanced EPD are far more accurate than the EPD of old. Those GE-EPD provide you (and us) with the same amount of information as if we had 10-20 calves (depending on exactly which trait) already on the ground and in the Brangus Database system. **Wow, we can see his value as a parent before the calves are born!**

### SPITZER RANCH, LLC STAR RATING SYSTEM

We have watched the industry and studied a long time to make bull selection easier for our customers. After a great deal of research and study we released our STAR RATING SYSTEM in 2019 for an all-encompassing guide to evaluate the broad categories of Curve Bending Genetics, Calving Ease, Growth and Carcass. Please remember, GE-EPD are the absolute best and most precise tools for your bull selection and you should use individual GE-EPD and, more importantly, their respective Percentile Rank, to hone-in on individual traits specifically needed in your cow herd. The Star System simply gives you a tool to quickly look at those four broad categories and quickly find bulls with the GENETICS that fit your needs.

The Star System uses all available information along with “cowboy logic” to rate the bulls for the four categories. The more stars, the better for that category. Each bull is rated from 0 to 5 stars and a bull must be in the top half of the database for Growth and Carcass to get even one star while five stars are only given to the ultimate cream of the crop for that category. For Calving Ease, our recommendation would be to use 3-Star, 4-Star and 5-Star bulls to breed heifers.

Those who have followed our program (since 1982) know how hard we have focused on finding and creating bulls with the right genetics to decrease birth weights and increase growth at the same time. Since those traits are antagonistic that is a hard task, but we have successfully designed our program to do just that. The Curve Bender Rating identifies those bulls. While there are individuals who excel at Calving Ease and still others that excel at Growth, few can do both in the same Genetic Package and they are CURVE BENDERS!

### RETAINED INTEREST BULLS

SPITZER RANCH LLC reserves the right to RETAIN A ONE-HALF SEMEN INTEREST on any of their bulls sold. Retained Interest Bulls are clearly so noted in comments. Retained Interest Bulls are in your possession and under your control for natural service and you get all (100%) of the salvage value. We will continue to own half interest in bulls for the purpose of collecting and marketing semen, as well as using semen in our and our cooperators herds. You can decide whether (or not) to be involved with semen sales. We have developed a standard Bull Partnership Agreement spelling out further details. Please call, write or email to review a copy of this agreement. If you have any questions at all, please ask. If you chose not to be involved with semen sales, we still reserve the right to collect and market semen on any retained interest bull.

We passionately believe it answers the question: “How can we provide the most valuable and unbiased information to sell our bull’s genetics to the right buyer?”

However, we are totally transparent with all data. If you have a desire to see all individual weights and ratios as well as raw carcass ultrasound data; please call or text or email and we will have available a Data Sheet on each bull we will be glad to provide on request.

**Every bull in this catalog has GE-EPD, meaning their EPD are based on all available data PLUS a DNA profile and bulls are additionally parent verified.** The Brangus association computes EPD monthly and these were retrieved from the AUG 2022 genetic evaluation. NOTE: Beginning with the 2021-born calves, we now use a 100K DNA profile.

### Curve Bender Rating

- 5 \*\*\*\*\* Star Ultimate Extreme of Low BW and Increased Growth for WN and YR Weights
- 4 \*\*\*\* Star Elite Combination of Low BW and Increased Growth for WN and YR Weights
- 3 \*\*\* Star Superior Performance of Low BW and Increased Growth for WN and YR Weights
- 2 \*\* Star Excellent Balance of Low BW and Increased Growth for WN and YR Weights
- 1 \* Star Above Average for Low BW and increased Growth to WN and YW Weights

### Calving Ease Rating

- 5 \*\*\*\*\* Star Ultimate Calving Ease for All heifers and cows
- 4 \*\*\*\* Star Elite Calving Ease for All heifers and cows
- 3 \*\*\* Star Superior Calving Ease for well-developed heifers and All cows
- 2 \*\* Star Excellent Calving Ease for All mature cows
- 1 \* Star Good Calving Ease for All mature cows

### Growth Rating

- 5 \*\*\*\*\* Star Ultimate Growth
- 4 \*\*\*\* Star Elite Growth
- 3 \*\*\* Star Superior Growth
- 2 \*\* Star Excellent Growth
- 1 \* Star Good Growth

### Carcass Rating

- 5 \*\*\*\*\* Star Ultimate Carcass
- 4 \*\*\*\* Star Elite Carcass
- 3 \*\*\* Star Superior Carcass
- 2 \*\* Star Excellent Carcass
- 1 \* Star Good Carcass

### CARASS ULTRASOUND

We have been using ultrasound technology to evaluate carcass characteristics since 1998 (24 years). The results of ultrasound scan data on these bulls and their heifer sisters were outstanding. The GE-EPD for all these bulls already have those scan data incorporated so that is your best estimate of REA and %IMF. However, all individual information is available to customers upon request.

## 2022 Profit Maker Bull Sale – Profitable Genetics from Performance Cattlemen

Comments													Maternal Granddam	Maternal Great Granddam

### GE-EPD EXPRESSED IN CALVES SIRED BY AN INDIVIDUAL BULL

1. **CED – Calving Ease Direct** – Expressed as a percentage and indicates the direct influence of this bull on calving ease in 2-YR-OLDS. A higher number predicts greater calving ease or less dystocia for this bull's calves when born to first-calf heifers.
2. **BW – Birth Weight** – Expressed in pounds and predicts calf size and weight at birth.
3. **WW - Weaning Weight** – Expressed in pounds and predicts growth potential from birth to weaning age.
4. **YW -Yearling Weight** – Expressed in pounds and predicts overall growth potential and post-weaning gain to yearling age.
5. **SC - Scrotal Circumference** – Expressed in centimeters and predicts testicle size.
6. **REA - Ribeye Area** – Expressed in square inches and predicts ribeye size and overall muscle mass.
7. **IMF - Intramuscular Fat** – Expressed in percent (%IMF) and predicts marbling ability and quality grade.
8. **TERM – Terminal Index** – Is a bio-economic index which considers six Growth and Carcass related traits. Each trait is weighted according to its heritability and economic importance in a feedlot situation with the carcass valued by weight, yield and quality grade. The absolute EPD value is expressed in standard deviation terms (statistical terms) which can be difficult to comprehend. Therefore, IBBA recommends cattlemen evaluate the percent rank - % RANK rather than the actual index value.

### GE-EPD EXPRESSED BY DAUGHTERS OF AN INDIVIDUAL BULL

9. **MK – Milk** – Expressed in pounds and predicts the maternal contribution a bull passes to his daughters. In reality measures that portion of calf weaning weight attributed to milk production and mothering ability.
10. **TM - Total Maternal** – Expressed in pounds and predicts the overall weaning weight of calves from daughters of a bull due to the combination of growth potential AND milk production and mothering ability.
11. **HP – Heifer Pregnancy** – Expressed as a percentage and indicates the probability that daughters of this bull will have a calf as a 2-YR-OLD. A higher number predicts a greater likelihood of calving by 2-YRs of age.

12. **STAY – Stayability** – Measures the likelihood that a cow will remain in the herd thru 6-YRs of age. A higher number is more desirable.
13. **% RANK** – To make it easier to evaluate EPD, the percentile ranking is shown below each individual EPD. This is a great way to understand where the individual ranks in the breed for that EPD. For example, where it shows “10%,” this means that EPD value is in the highest, or TOP 10%, of all non-parent bulls in the entire breed. Conversely, “10%” also means that “90%” of all non-parent bulls in the breed have a lower EPD for that trait. (A 10% for BW, however, means lowest, or lightest birthweight.)
14. **BREED** – Straight Brangus (BN) bulls are so indicated. Brangus Percentage Ultrablack bulls are so indicated. Ultrablack (UB) are black in color, BN X ANGUS (AN) and are indicated with %BN:%AN. ALL GE-EPD are computed on the Brangus System. By Brangus Association rules, 75%BN:25%AN bulls can be used on Registered Brangus cows to produce First Generation Registered Brangus. Therefore, in our opinion, you can use the 75%BN:25%AN bulls as if they were 100% Brangus.
15. **CURVE BENDER** – \*\*\*\*\* Ultimate Extreme Curve Bender to \* Above Average Curve Bender
16. **CALVING EASE STARS** – \*\*\*\*\* Ultimate Calving Ease to \* Good Calving Ease
17. **GROWTH STARS** – \*\*\*\*\* Ultimate Growth to \* Good Growth
18. **CARCASS STARS** – \*\*\*\*\* Ultimate Carcass to \* Good Carcass
19. **DAM AGE** – Age of dam at the time of birth of this bull.
20. **#C** – Number of calves born to this dam. If she calved every year, it should be 1 less than her age. ET indicates embryo transfer donor cow.
21. **DOC** – The Beef Improvement Federation Temperament Score from 1 = Docile to 6 = Very Aggressive.
22. **PRICE** – Each bull in the sale has a unique STARTING BID. Bulls not sold during auction will be available (First-Come-First-Served) at that price thru the end of October. After then that price is not guaranteed.

**NOTE: GE-EPD highlighted in yellow Rank in Top One-Fourth (Top 25%) of all Non-Parent Brangus Bulls for that specific trait.**
